PROFESSIONAL EXPERIENCE

ZoloStays Solutions Pvt. LTD
Software Developer Engineer - II, Sept 2022 - PRESENT

- As a fresher, I gained a good understanding of work culture, deadlines, and in general how a company works, I learned many things and gained experience.

- My biggest learning was how to work with a team and deliver a product on time, as well as how to demonstrate a product to non-tech people to get a better grasp of the product. I also learned about Confulence, JIRA, CI/CD Pipeline, and Docker.

FunctionUp Placement Bootcamp
Backend Developer Trainee, Mar 2022- Sept 2022

- Have been enrolled in FunctionUp since March, 2022, functionUp has proven to be a challenging bootcamp that has challenged me many times. I have learned JavaScript, Node.js, Express and MongoDB, as a trainee here at functionUp.

PROJECTS

ReJob [April-23] ⊙
Tech Stack: Javascript, NodeJs, Rapid API's, React-Native

I've build some projects during my cohort session they are real-industries based projects, You can view them in my Github profile.

Function-Up Projects [September-22] ⊙
Tech Stack: Javascript, NodeJs, Mongoose, AWS, MongoDB

I've build some projects during my cohort session they are real-industries based projects, You can view them in my Github profile.

Ride-IT [January-22] ⊙ (◉)
Tech Stack: Javascript, NodeJs, React-Native, AWS, GCP,

Similar to Ola and Uber, I have built an Android app called Ride IT that helps students and staff traveling to college from a distance.

Portfolio Website [November-21] ⊙ (◉)
Tech Stack: Javascript, HTML, CSS,

My Portfolio website is how I show my skills to any business.These days, every business wants to know whether an employee is good or not at his skills.
